2. Wedman.in

Weddings are made in heaven. But their preparations are done on earth only. Thus there is no need to mention that organizing weddings is not at all an easy affair. And this is the foremost thought behind the conception of Wedman. This is India's first ever online wedding manager application. Wedman which is short form for wedding manager gives you full control over your own wedding planning!

As a matter of fact, your family members too can use this easy to use wedding planning application without any hassles. Now you can plan, manage and organize things just the way you wanted without any nagging wedding planners breathing fire down your neck.

To have better insight of how wedman.in can simplify and enhance your special wedding moments, please visit our dedicated website www.wedman.in

[Simply redirected the visitor who clicks to www.wedman.in. Too much explanation isn't needed]

Gallery

[Have a multi-snapshot of KonnectMe App for the visitor to click and browse through and get a detailed look and feel of how the app would be. If you think this not needed, please remove this section altogether.]
