ABOUT SHREE ANGAN –

Shree Angan was established in 1992 as a trading company and by 2002-03 it spread all across the country. In the same year manufacturing and processing unit was set up and the company became a private limited. In 2006, we took a step further and set up the first granite manufacturing and processing unit in **Rajsamand**. In 2011-12 we started using minerals as raw materials in the manufacturing of vitrified tiles which garnered extremely positive response. In 2014-15 Shree Angan ventured into designer flooring which were ready to fix. Our primary focus is on manufacturing and technology. We strive hard to achieve supreme quality with everything that we manufacture.

COLLECTIONS PAGE

Natural Stones –

Natural stones, as the name suggest has a natural beauty which is unbound by time. It is the combination of very vital minerals from all around the world which help in giving a luxurious, stylish and world class look to the rooms.

Natural stone contain a collection of granite, marble, onyx, travertine and limestone that complement perfectly with the different delicate colors. It is the impeccable workmanship and technology which help in giving world class quality natural stones.

Natura Collection –

When culture and talent cohesively are worked upon then magic is created. The Shree Angan Natura Collection was created when passion

and love for natural surroundings met the talented hands of workmanship. This exclusive collection brings out the true beauty from the surface original designs and structures.

Texture+ Collection -

This particular collection helps in creating the best of original textures out of the plain surfaces. The surroundings will get the most elegant feel with the perfect tones, shades and gradients.

Woodstone Collection -

The Shree Angan Woodstone collection is one of its kind collections which help in creating exclusive marbles while having the best of shapes in the collection. Different combinations help in giving the flooring a unique design.

Brickstone Collection -

A variety of shapes and perfect lines help in defining the Brickstone Collection. With the help of technology, **Shree Angan** creates beautiful brickstone collection which is eco-friendly and has geometrical shapes and structures.

Jurassic Collection -

With this collection, every piece is unique. These are created out of natural phenomenon which caused millions of mollusks to settle down on the sea bed. The shells which were created millions of years back due to heat and pressure metamorphosed into marble. The limestone is preferred due to its heterogeneous nature.

Luxury Collection -

This exclusive collection has creativity in its core. Its design has the finest of materials. The collection has class and elegance which comes with a lot of sophistication and finesse. With the correct combination of style and authenticity, elegant solutions are provided.
