BM TECHNO MACHINES - A SNAPSHOT

Established in 1984, BM Techno Machines Pvt Ltd, by the visionary spirit of Mr. Bitthal Maheshwari, has grown to be a name that stands for excellence in precise automation technological solutions. Harbored in Chittorgarh, Rajasthan (India), BM Techno Machines is a leader in manufacturing machines catering to Marbles & Granites Industry, assisting accomplishment of various roles and processes from mining to processing. Adding to the glorious legacy of BM Techno Machines are several accolades, medals, awards and certifications earned against the robust Marble Machinery Operations. We also became the pioneers in automated Marble and Granite Processing with the state-of-the-art machinery deployed, for the first time in Rajasthan.

With the advanced most technologies at disposal and imported machinery supplements, BM Techno Machines employees some of the finest talents in the industry with unmatched experience and expertise, making us, one of the most sought-after brands across the country. With the dedicated R&D Team, connected with some of the best brains across the globe, institutes such as IIT, Education and Research bodies across the country, and in-house panel of scientists and researchers; we boast of having paved the roads for several path-breaking innovations in the industry.

As an industry leader, we believe in sharing the knowledge and excellence in a collaborative manner, in order to achieve a smarter and brighter tomorrow.

In the course of its robust history, BM Techno Machines has had the privilege to have successfully supplied and installed turnkey projects in countries such as Egypt, Turkey, Lebanon, Zambia, Sultanate of Oman, UAE and many more.
