DIY: Hanging Storage Container

## Post Description:

Step 1: First, remove all labels from your container

Step 2: Then, use a piece of paper to cut out a shape for the back part of each container, so that it would be straight and uniform. Trace it onto each container, with a permanent marker.

Step 3: From the main rectangle piece of wall hanging. Draw dots where you want your knobs to be and then drill them out.

Step 4: Attach the hooks to the back of piece of wood.

Step 5: To finish it off, Spray paint on the wood, let it dry, sand the edges of the wood a bit, attach each of the knobs, and hang up the new piece of organizational beauty! :)

DIY: Button Jars

## Post Description:

Supplies: Buttons, elastic band, a jar and a pair of scissors

Step 1: Thread the buttons onto the elastic band through the diagonal holes.

Step 2: One idea is to cut a tip at the end of the band making it easier to thread the buttons. When done, tie a knot and distribute the buttons even out on the band and you are good to go.

## Post 9:

Tagline: DIY Pencil Vase

#### Post Description:

Supplies: 1 glass vase, Pack of 2 pencils, Rubber band, Colorful ribbon, Flowers

Step 1: Place a rubber band around the glass and insert the pencils between the glass and the rubber band until the entire glass is covered.

Step 2: Hide the rubber band with a colorful ribbon.

Step 3: Add about 2 inches of water into the glass; add more water as soon as possible to keep the flowers fresher longer.
