RESOLVE REDACTION ISSUES

ON TIME AND UNDER BUDGET!

Is your ops team, counsel or servicing agent submitting properly redacted documents into public record?

Financial institutions have recently made headlines for failing to protect the personal information of consumers in bankruptcy, as a result of imperfect redaction procedures and technology limitations.

AIS Redaction & Remediation Services give creditors a verifiable solution to quickly and accurately redact items containing personal identifying information (PII), as required by federal bankruptcy rules.

Our experts will partner with your team to prepare a corrective action plan focused on the redaction of Proofs of Claim, Objections to Plan, Reaffirmation Agreements, Motions for Relief from Stay and other documents associated with bankrupt accounts which are filed on PACER.

AIS has the capability and resources to support banks, credit unions, auto lenders and mortgage servicers in identifying redaction errors and deploying remediation efforts to ensure compliance.

REDACTION CONCERNS?

Contact AIS today at **877-247-7253** or **contactnow@americaninfosource.com** to learn more about our redaction and remediation services.
